Donate your fish skeletons to research

If you are a recreational fisher on the **West Coast**, you can help with vital long-term monitoring of our valuable fish stocks by sending us your fish frames (skeletons with the heads and guts intact).

This helps us to make fisheries management decisions that ensure our fish stocks are sustainable and recreational fishing in WA continues to be some of the best in the world.

As a bonus, by sending us your frames you will have the chance to win some great fishing prizes.

HELP ENSURE THERE'S FISH FOR THE FUTURE

Species we need

From the West Coast Bioregion
(just north of Kalbarri to east of Augusta)

West Australian dhufish
(*Glaucosoma hebraicum*)

Baldchin groper
(*Choerodon rubescens*)

Redthroat emperor
(*Lethrinus miniatus*)

Snapper
(*Pagrus auratus*)

Bight redfish
(*Centroberyx gerrardi*)

Australian herring
(*Arripis georgianus*)

Tailor
(*Pomatomus saltatrix*)

King George whiting
(*Sillaginodes punctata*)

How to donate your fish frames

Hand your fresh or frozen fish frames (with the heads and guts intact) to any of the drop-off locations listed on the next page. You can keep the fish's wings (pectoral fins) and cheeks if you like.

A dhufish frame

Please label your frames, giving the following details:

Who caught the fish

(name, phone number and email address – if you have one)

When the fish was caught

(date)

Where the fish was caught

(for shore catches: the general location; for boat catches: latitude/longitude or distance and bearing from port and the name of the port – we'll keep the 'where' information strictly confidential)

Donate your fish frames and win great fishing prizes!
